DETAILED ACTION

Claims 1-38, 39-57, 59-79 are pending in this application. Claims 1-36, 40, 42, 44-46, 50-57, 59, 64-65 were previously withdrawn pursuant to the Restriction requirement set forth in February 22, 2002 as being directed to the non-elected invention and/or non-elected species.

Amendment filed on February 9, 2004 has been entered. However, the scope of the claims are now subject to additional election of species requirement.

Election/Restrictions

Claims 37, 39, 41, 43, 47-49, 60-63, 66-79 are generic to a plurality of disclosed patentably distinct species of:

- Compounds comprising at least one C5-C7 saccharide unit substituted with at least one amino group with the proviso that said compound is not glucosamine (claims 37, 39, 41, 43, 47-49, 60-63, 66-77).
- Glucosamine and at least one additional sugar comprising at least one C5-C7 saccharide unit substituted with at least one amino group chosen from monosaccharides and oligosaccharides (claims 78-79).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

No telephone call was made pursuant to the previous communications.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shahnam Sharareh whose telephone number is 571-272-0630. The examiner can normally be reached on 8:30 am - 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreenivasan Padmanabhan, PhD can be reached on 571-272-0629. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
